

Parsing Web Content

Web Scrapping

Web Scrapping

Parsing Web Content

HTML Parsing

Parse HTML and CSS associated with web content

Can not parse dynamic changes made by JavaScript

Work with structured text, rather than object of the Documents-Object-Model

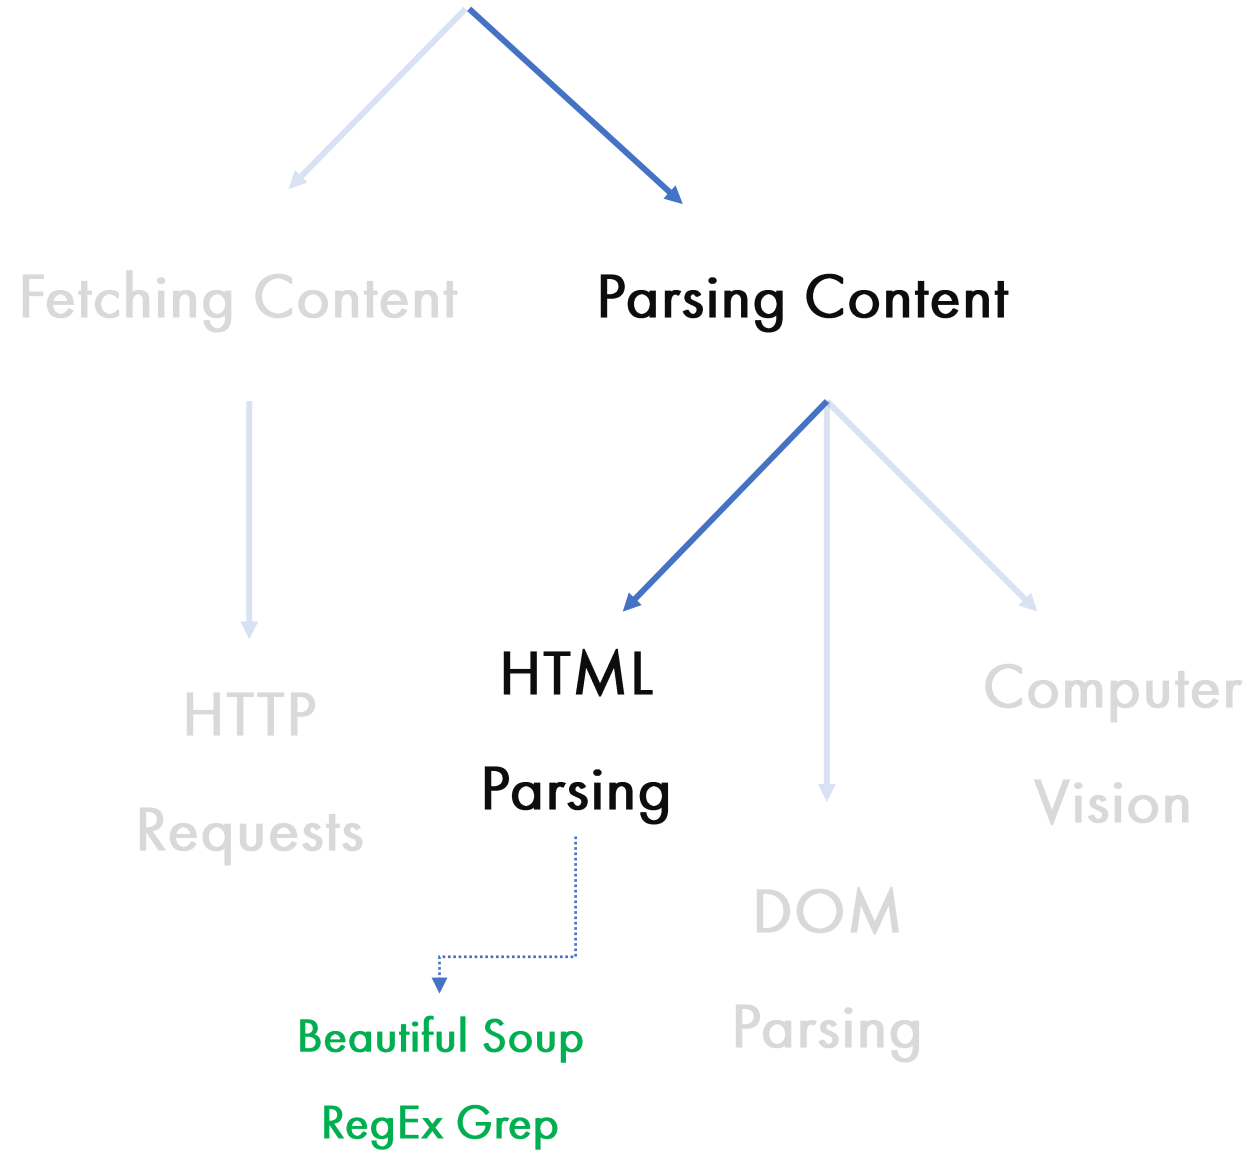

DOM Parsing

Parse dynamic content in addition to static content

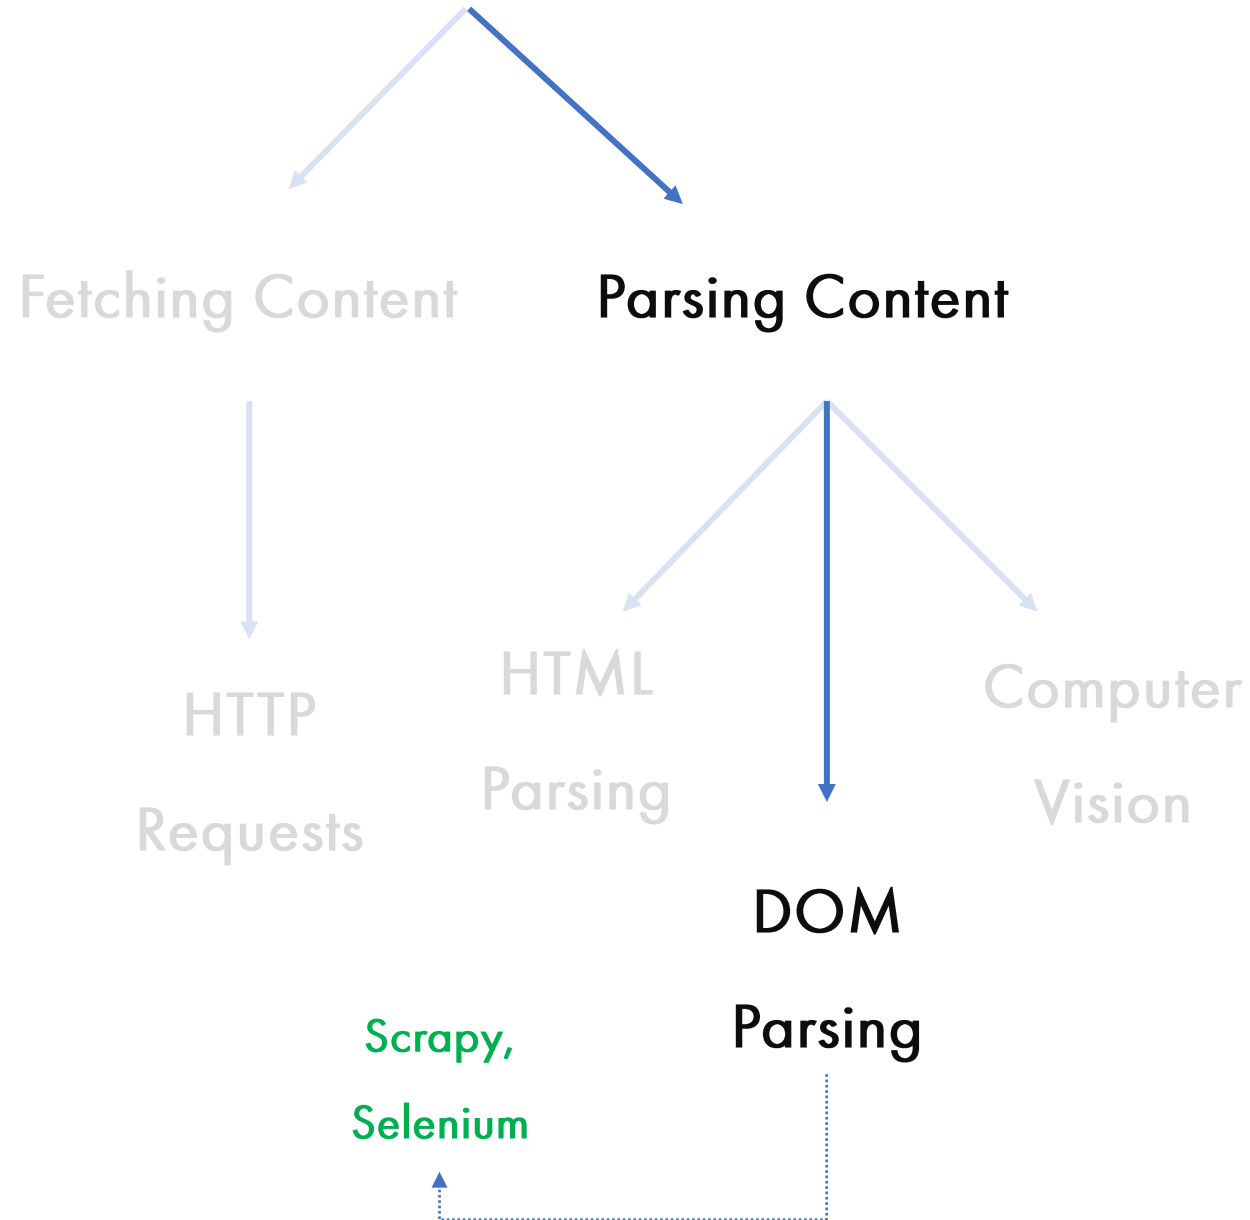

Can parse dynamic changes made by code elements

Can work either with text elements or with objects in the DOM

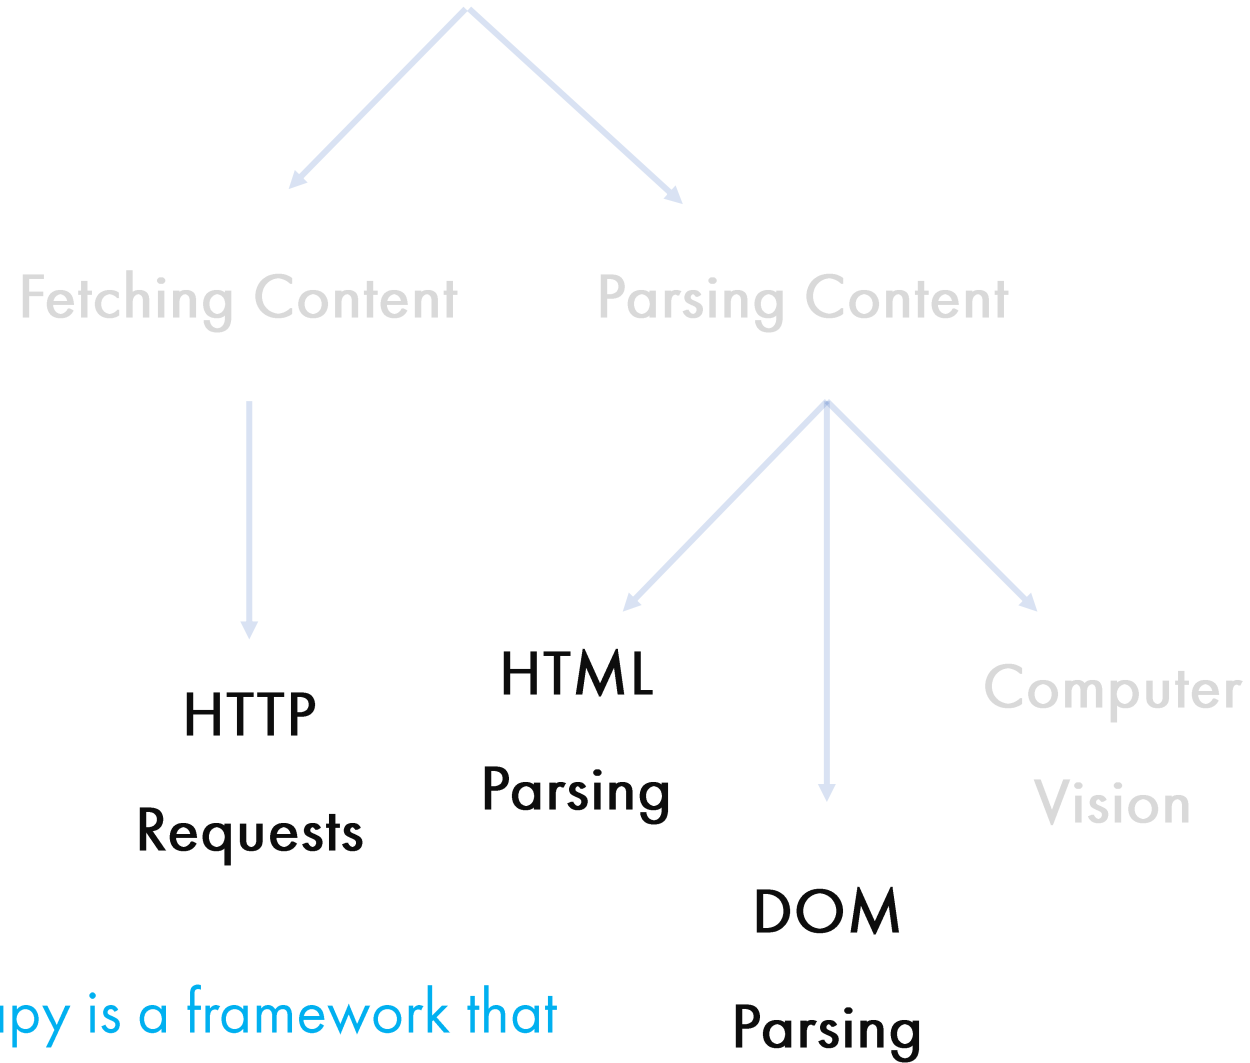

Web Scrapping

Web Scrapping

Web Scraping

Scrapy is a framework that
combines all of this

Scrapy

Framework for building production-grade, heavy-duty web parsing systems.
